	Heifers are pliable and easy to move through the yards, exactly what you'd expect from well handled stud animals. No trouble whatsoever while being preg-tested and caught in the head bail. 1 heifer with less tolerance to pressure, not aggressive but also not quite, fizzy when isolated, fine when in the mob.

Assessor Comments	Excellent quality young breeders starting their productive careers! All heifers are registered, can be transferred, offspring can also be registered. All bulls used including AI sires are calving ease bulls with low birthweight EBV's. These girls have been run as classed in stud heifers in a small management group as part of the 400 strong registered herd from Outwest Angus. PTIC 3.5-7 months in calf to Ai sires listed and back up sires, this is an opportunity not to be missed! List of individual heifer idents.
