| Assessor Comments                     | A line of young Hereford cows PTIC to high quality Hazeldean Angus Bulls. This line of moderate framed cows are forward in their pregnancy and will be preg again before delivery. In the prime of their life these cows present a good opportunity for a quick trade or to add to an existing herd.                                                                                         |                         |         |
