Assessor Comments	19 PTIC Angus heifers being offered under final dispersal conditions as property has been sold. Quality vendor bred Tabletop and Dunoon blood heifers that are in calf to low birth weight Table Top Angus bull TCC early August for 8 weeks. Rising 2 years old Heifers have been looked after well throught a tough local season and present in good forward condition ideal fo calving and if looked after will continue to grow into solid medium to large frame cows. In summary quality young females with many years of production in front of them that would be a good addition to any spring calving herd.
