Assessor Comments	On offer is a line of well bred angus cows preg tested in calf to the Glenara Angus stud bulls to calve late July for 9 weeks. These cows show great maternal traits with all rearing calves last year for the local store market. All cows showed great temperament in the crush during assessment and in the yards. They were drenched with a long acting drench in May and are ready for you to take home and turn out for a quick return. *Please note vendor has 2 other lots of PTIC cows in same sale*
