Assessor Comments	21 PTIC Angus Cows. Purchased 2 years ago on Auctions Plus from Holtsons Pastoral Company (A Battersby) as Heifers & Calves during a drought period up in Buchan, VIC. These Cows have grown out well and have reared two nice batches of calves in their time at Tanjil South, only set for sale due to a change in operation, these Cows (coming up on their 3rd calves) will continue to prove their value to any existing herd or would easily suit as a starting group of cows to enter into breeding with. Cows are joined to both 'Munro' Angus Bulls & 'A Conisbee Co.' Angus Bulls to calve from the start of August onwards for 8 weeks. Have been fed with hay and silage as well as a small pick of green grass over the last 6 months and are in great order for calving. This mob have come along in leaps and bounds since their purchase as heifers and have continuously improved both their temperament & condition. An easy recommendation for anyone looking to add a quality article to their programs.
