Vendor Comments

Regretful sale of PTIC Angus Heifers. Only selling due to expanding other parts of the business and losing grazing land.

Assessor Comments	A very-well presented line of 17 Angus Heifers PTIC to a registered Speckle Park Bull. These heifers originated from Pathfinder bloodlines and have retained their condition well over the previous long-dry period seen throughout the state, averaging 475kg at assessment. The temperament of these heifers is a credit to the vendor and in my opinion they would ideally suit a purchaser looking for a small mob of replacements or to top-up a current herd. They have had a drench and injection of B12 and Multimin at the beginning of May and are ready to put in the front paddock to calve down from early August onward. These heifers have my recommendation and will not disappoint.
