Assessor Comments	72 x 72 Droughtmaster Cows and Calves that present as very good quality units. Cows are majority large frame with an estimated average delivery weight of 543kg whilst presenting in forward store condition, and are doing an excellent job on their calves. The calves are Jan/April drop and are all sired by the very good Eddington Droughtmaster Bulls, a sample of calves were weighed to average approx 160kg and all remain unmarked. The cows have not been intentionally re-joined however were exposed with two bulls for a short period, please refer to joining notes. These quality cows and calves handled very well through the yards and when released into the holding paddock. "Waterloo" is located south of the tick line in clean country, please note strict delivery dates of 14.07.25 or 15.07.25.
