1 Head slight twisted nose																		
Assessor Comments	Buyers, on offer is 60 PTIC Brangus cows all PTIC to Wallangra and Bulliac Angus Sires. Cows show all attributes to make ideal replacement breeders with cows showing plenty of length and depth whilst still showing good femininity. Cows were all pretested by Christine Powell vets and were tested on 07th of July 2025, all cows being 4 - 7 months in calf at time of sale with the Majority being 5-7 months PTIC. Cows are proven breeders with the majority having had 3-5 calves. This group has plenty of breeding years left in them and would be an asset to anyone's breeding operation. Cows are only being sold due to vendors change in direction. Buyers vendor also has another 2 x lots in same sale. Cows were assessed in no particular order placed into 2 x 3 deck lots and 1 x 2 deck lot. Cows had big weaners pulled off at assessment, This is your chance to secure genuine breeders that are not offered very often.
