	Quality Grades		Store Condition	
	Very Good	71%	Fwd Prime	25%
	Good	29%	Fwd Store	75%
Temperament	Yards		Crush	
	Quiet: 49 head		Quiet: 44 head	
			Slightly Stirry: 5 head	
			Paddock	
			Temperament not assessed in Paddock	
	The heifers were generally good to handle in the yards and through the crush. Five head were slightly agitated in the crush and would not stand still. All settled well once back together in the holding yard and remained settled when being photographed.			
Handled With	Bikes , Dogs			
Assessor Comments	A line of good to mostly very good quality Angus x PTIC Heifers. The heifers are mix of vendor bred and one mob of heifers purchased as weaners. All are 100% LT. They are medium to mostly large frame heifers, with good weight for age with a LWR of 368 - 580 kg to average 485 kg. They were vet at assessment to be 5 - 8 months in calf to Mooroobie Angus bulls (QBP22T150, QBP22T156, QBPR4, QBPR23) which were purchased as heifer suitable. The vendor will observe fit to load guidelines around any heifers deemed on the point or close to calving in consultation with the buyer. Please note there is 4 wet cows in the line. They must have been in calf at purchase in 2024 and had weaners removed at assessment. They are all 5 - 6 months in calf. One heifer had rub and bite reaction marks on the neck - see photo. The heifers were very good to handle in the yards during photographing. Please note vendor is willing to load a comfortable & safe two decks at delivery with prior notice to the buyer.			
Assessor	Andrew Wilkie (Level 1 Accredited) Phone: 0427 011 608
