Assessor Comments	Here is a good line of young to middle aged Angus and Angus cross cows PTIC to Golden Arrow Angus Bulls. These are medium to large framed cows which are ideal breeder types. These cows are on their 2nd to 4th calving so have plenty of breeding life ahead of them. The majority of these cows still have weanable calves currently on them which will be weaned once cows are sold. The cows are doing a good job on their current calves. The weaner heifers of these cows are in Yearling and Weaner Sale on same day as this sale. The cows handled well throughout the yards with no problems at all. Please note one cow has a slight blue eye which is not detrimental to her performance.
