Assessor Comments	A nice little line of 9x9 Shorthorn heifers with shorthorn calves at foot. Heifers are all all young and would be on their first or second calf on their first calf. Heifers were purchased out of Blackall with the intentions to feedlot but due to being in calf it was decided to let the heifer's calf out. These units would be ideal for any breeding program. Buyers please note in the trait section there is one cow with a small dog bite on her near side hip - can have her in or out as you wish
