	Cows have been very well handled from previous owners and have had a lot of recent exposure to yards and pregnancy testing being tested three times recently through the sale process of the place and now with the Auctions plus assessment. Cows have handled all of this in their stride and flowed through the process with ease showing very quiet natures, even getting handled by kids in the back yards with ease at assessment.						
Handled With	Bikes , Dogs , Horses						
Notable Traits	Traits 2 Head Old pink eye scarring in one eye 1 Head White markings to navel.						
Assessor Comments	*** EU HERD DISPERSAL *** A Great opportunity presents to secure a run of well bred Angus PTIC Cows with over 20 years of breeding and cattle that have a very good reputation for breeding quality weaners in the New England overmany years. Cows originally were owned and bred by the shearer family and have only recently changed ownership through the recent sale of the Blair Hill Station, A great trading opportunity was seen by the new owner and now offer these cows to the wider market. Cows have a great breeding background with quality angus genetics being used from Sara Park, Eastern Plains and Wattle Top Angus Studs to be the back bone of this quality cow herd. There is19 of these 10 & 11 year old cows that due to calve soon to quality home bred sires from the breeding program of the Shearer family. These Large framed females are proven breeders that consistently produce quality sort after weaners here in the New England. Quality Females not to be missed.
