Notable Traits	Traits 2 Head Tinge of red in coat					
Assessor Comments	A Smart line EU Vendor Bred Angus heifers that wouldn't look out of place in any ones front paddock. Heifers are in calf to a High indexing Trent Bridge Wagyu bull and will approximately start calving mid August. Heifers are from a closed herd which only buy in bulls, the Lindeman herd has a foundation of Quality Te Maina, Glenavon and Clunie Range Angus Genetics. These heifers are well grown for their age and have all the attributes you want and need in a future breeder, Softness, length and Frame. A Great opportunity to secure a good size line of EU Heifers that offer the added advantage of sleep less nights when calving comes around due to the wagyu factor and if your in the F1 breeding program these heifers will offer very saleable F1 progeny as no expense was spared on their sires that had high indexing figures including a marble score of 2.5. Highly productive females not to be missed.
