Assessor Comments	On offer are 15 young PTIC Angus cows presenting in store condition, offered to market due to persistent & continuing tight seasonal conditions. The Triple R operation has used AI sires extensively over the last 11 years with this group sired by Stellar 726D & Mogck Entice. The herd is typically moderate framed. 10 head in this draft have been PTIC to AI sire Myer Fair-N-Square M39 to calve tightly from August 18, with 5 head naturally mated and due in October. All of these cows have calved at 2 year old and all except one have reared calves. Well bred young PTIC Angus cows, with excellent temperament, a terrific chance to acquire core herd breeding cows. (NOTE: vendor offers 42 PTIC cows and heifers over 4 lots in this sale).
