Assessor Comments	These Heifers represent the summer/ autumn calving portion of the dispersal for Niu River of their award winning Angus/Wagyu program. These young heifers were bought in last year as young weaners from NSW from reputable breeders and joined to industry leading sires to produce Angus/Wagyu progeny for the high end beef markets. They are PTIC for a tight calving window of the 16/1/26 until the 20/2/26. All bulls have a marbling score over 2 and their EBV's are attached as a link. These heifers would make a great base for a Angus/Wagyu herd or would be a great addition to any Angus herd. Please note the vendor has 3 other lots of PTIC cows which will calve this spring on todays auction totalling 131 head.
