	These heifers were a pleasure to handle in the yards & through the crush. Flowing well through the race up onto the scales with very little fuss. The stirry & slightly stirry heifers in the crush were from being asked to stand in the crush or on the scales for too long or when being Preg-Tested. Once out in the yards they calmed down very quickly lovely to walk though when taking photos & videos.

Assessor Comments	Buyers an opportunity awaits you to purchase a line of EU Accredited, PTIC heifers with their whole lives ahead of them that are very rarely offered up for sale as breeders. These heifers are surplus to requirements. These heifers have not been intentionally joined. Two Braford bulls were found in the paddock and this is the result. Normally grown out & sold as feeders or direct to works, these heifers are showing good maternal traits, growth & weight for age. Heifers are out of a renowned herd in the Alpha area, with a lot of emphasis placed on fertility, growth & weight for age. These heifers would be an asset to any breeder operation or to calve down and slip.
