	Stirry: 2 head	Stirry: 2 head	
	Cows worked well through yards with a few becoming agitated in the crush or when put under pressure in small yard but settled quickly when returned to the mob ,this could be attributed to second time through yards in 3 days,, as with all Northern cows good stockmanship needs to be used when placing cows in confined areas		
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , Horses , On foot		
Assessor Comments	Buyers a good opportunity to secure a 4 deck line of good quality PTIC crossbred one brand Cows, middle aged with all in a tight 2 month pregnancy window as early spring calvers These Cows have shown their resilience and fertility by raring a 260kg weaner through very trying conditions last year in the Mulga and getting back in calf, their weaners were removed from late March to last weekend they have freshened up considerably since and will continue to do so on good feed. The majority of cows in this mob show the quality and fertility to be an asset to most breeding herds and have the added bonus of being in calf to Good Quality Fairview Black Simmental bulls. These Mt Emu cows have a good reputation for producing good quality crossbred calves under any environmental conditions Please note 1cow with old blight scarring in 1 eye and a couple have old fly rub marks.Vendor has another 4 decks Cows this sale.
