Assessor Comments A Beautifully bred line of Angus heifers and calves. Gilmandyke and Araunah blood, These heifers represent the best of the Glen West genetics and were the tops of the 2023 heifer drop out of approximately 200. Calves are by quality Landfall Low birth weight Angus sires and there are 20 bull calves and 11 heifer calves which are not marked. Presenting in store condition due to the poor seasonal conditions experienced in the past 10 months. Given the right opportunity these young females will Blossom into medium to large frame matrons of the future. These heifers and calves handled extremely well through the yards and were very quiet to drift off their calves.
