	Well handled cattle that moved through the yards well. The vendors put alot of effort into handling these cattle and it shows in the temperament of these females.			
Handled With	Bikes , On foot , Vehicles			
Notable Traits	Traits 2 Head Blue spot on eye/Pink eye scarring			
Assessor Comments	An excellent line of second calving cows to calve down in the Spring. These Te-mania blood cows have an excellent genetic background coming from the Ardenside Angus herd and have been joined back to Landfall Momentous S426 a bull who is top 5% of the breed for IMF at +5, Positive fats, big EMA at +9.1 and top 21% for both indexes. They were also backed up in January to Te-Mania T420 an excellent positive fat, easy calving bull with low birth weight and high IMF in the top 2% of the breed at +5.8. The cows present in store condition after coming through a very tight season. The cows calved unassisted last year and the vendor was very happy with the progeny. Only for sale as they need to reduce numbers. The cows show good type and temperament and would be an asset to any Angus breeding operation.
