Assessor Comments	40 very quiet and well handled cows that are PTIC to the Wannon Angus bull. Due to calve early Feb 2026 for only 4 weeks, these cows are only rising 5 yo so have plenty of years and calves left in them they. They present in strong store condition and have great frame to put weight on they have only been running on short Rye/clover pasture with no supplementary feed. 100% weighed 420-642kg full to average 496kg. Very quiet cattle that were a pleasure to work with and produced a great calves last year in tough seasonal conditions.
