|                                       | The steers were very calm onto the scales they then walked through very quietly & out to the side yard - a small number were fidgety in the crush however gave no trouble in the yard or out. Photos of the Char calves were taken in a large cooler - the steers settled well - had an initial excited gallop around however settled quickly. The Black steers in the yard and were very placid when moving amongst them, a naturally quiet disposition.                                                                                                                                                                                                                                                   |     |                         |                                     |

| Assessor Comments                     | Exceptionally good quality steers showing good bone, length, frame and great disposition presenting in strong forward store to fresh condition. Well weaned & educated 1-2 weeks by sale day they are expected to grow well and perform to their potential on good feed. Assessed in two family lots - 59 by Bauhinia Park Angus & poll Char bulls from Charolais & Char/Charbray and a small number of brahman cows and the second are 40 by Bauhinia Park Angus & poll Brangus bulls from Brangus cows - all good soft steers. The Glenaras cows are top quality & large frame. The photos show the mob characteristics. Again these steers are very docile and great to handle - and highly recommended. |     |                         |                                     |
