They penned up well and flowed up the race well. The few that were not settled in the crush settled quickly when back with the mob. They have been very well handled by the vendor with horses' dogs and bikes and have been mustered and moved since weaning a number of times. They were a lovely quiet mob to walk through and take photos with no sign of panic or flight	Yards	Crush	Paddock	Docile: 10 head Quiet: 110 head	Docile: 10 head Quiet: 110 head	Temperament not assessed in Paddock

Assessor Comments	A ripping line of soft cross bred, well-handled steers on offer here. All the hard work has been done; they have been weaned 7 weeks and are all in healthy store condition and ready to power ahead on good feed. They are a mix of breeds and would suit the feeder market or would certainly grow out to be bullocks. These cattle have the genetics perform well and past sales show they do. They are very well handled and easy to work with. They have been pretreated on 4/8/25 for tick with Starmec injectable. It was noted that 3 steers have a small amount of rain scald on their forehead.
