	Steers worked well in the yards and through the crush, some showed signs of the limited handling but settled when released to the mob. No malice shown.		
Handled With	Bikes , Dogs , Horses , Vehicles		
Notable Traits	Traits 3 Head Pizzle showing 4 Head Purse still attached - may drop off prior to delivery		
Assessor Comments	Vendor bred Angus weaned steers, that were bred on lighter Rocky River country (40km east of Tenterfield) and trucked to Vendor's Tenterfield property for weaning. Steers weighed from 226 - 266kg to average 248.7kg full with an estimated delivery weight of 236kg . Cattle are generally worked with horses and dogs and were fine to handle during assessment with their limited handling. The restricted access due to river flooding lead to late marking (rings) with 4 steers still having their purse attached and a few steers showing pizzle - see photos. Nothing looks bully in the head. Brother and sister lots in same sale.
