A great line of steers to handle in the yards. They flowed well and gave no fuss at all.

Handled With: Bikes , On foot , Vehicles

Assessor Comments	A quality line of predominately Hereford (small number of Simmental cross) steers that although battling through a cold, slow winter are absolutely powering ahead now that feed is in front of them. These steers for their condition are very weighty. This is contributed for their growth in frame for age along with their heavy bone. Showing the quality of the breeding behind them. In the last few weeks since last seeing these cattle they have jumped out of their skins in weight gain. These steers are the ideal article that are on the excel forward in weight gain to really capitalize on the excellent market conditions at hand. 1 of 3 lots of same steers offered in sale. This is the third draft only drafted on weight.
