Assessor Comments	A good line of 81 x Aug/ Sep 2024 Drop NSM Bongongo Blood Angus Heifers. This group of heifers represent the second draft of Birroon's 24 drop heifers; a rare opportunity for buyers to purchase Birroon Station's entire draft as no heifers will be retained. The heifers present evenly as a group, they exhibit sound frame for their weight and will perform well if given the opportunity. Offered in a very tight weight range, typically the majority weigh between 200kg and 235kg full. A tail of 33% has been removed from this group. This group of heifers have experienced a tight autumn and cold winter. The heifers will grow into medium to large frame cows. Birroon selects sires for growth, fertility and structural soundness. This group of heifers responds favourably to calm handling in the yards and presented well for photos and assessment. Birroon will offer 161 x NSM Heifers. Note: 2 deck access only.
