Handled With	Bikes , On foot , Vehicles
Assessor Comments	108 Backgrounder Angus Heifers, Nov/Dec 2025 drop. These Heifers are well bred out of Scott's Angus bulls and well grown for age however present in store condition and are certainly not carrying any excess weight. Heifers weighed between 245kg and 340kg, averaging 274kg at assessment. These Heifers would be a great addition to any breeding herd or to grow out to feeder weights. Please note some weaners are showing rub marks from lice, Vendor drenched with dectomax at weaning (5.8.25). Due to weaners being in the yards from Monday (4/8/25) It is best to be picked up as early as possible, These heifers also need to be dropped in yards on delivery and purchaser make own assessment on further education. Please note these heifers will be given a PG for buyers certainty.
