Notable Traits	Traits 1 Head White on udder
Assessor Comments	A quality draft of (middles, tail removed) spring drop heifers that have a good depth of breeding with Rennylea, Baldrige and Texas sires. Feed availability since weaning has been in short supply and heifers have battled through the last 6 months. At assessment heifers were given a drench, 7in1 and selovin which gives cattle the best chance of responding to better feed.
