Assessor Comments	A very good line of 54 Simmental Crossbred #4 steers that present with plenty of frame, bone, and weight for age. These steers are structurally sound, display softness and growth, and are well-suited to carry forward into feeder markets or to be grown out into bullocks. The line has been well managed and is up to date with animal health, having received 2 doses of 5in1, Longrange Botulism, and 3 Germ Blood. Steers handled quietly through the yards at assessment and showed good disposition. Vendor has nominated weigh/delivery point at either Clermont or Charters Towers Saleyards after an overnight curfew in home yards. A pre-treatment was administered at assessment to assist clearance into tick-free regions, further widening buying opportunities.
