	Steers handled well through the yards, but the odd one did get agitated when isolated in the race. All were quick to settle when back in the mob.

Assessor Comments	Offering 4 decks of 104 quality Angus feeder steers. The steers were 431kg live at assessment after an overnight curfew. These steers are majority vendor bred on Ardrossan Angus bloodlines and have been drafted on type and weight to suit the Angus feeder specifications. The steers are a nice line that were good to handle and were mouthed milk and two tooth. Don't miss this opportunity to purchase a straight 4 deck line of Angus steers ready to go to the feedlot. Please note three head were sighted with old blight scarring and two with old neck lumps from vaccinations. Also note that there are another 39 feeder steers from the same vendor in the sale.
