| Assessor Comments      | Offering 39 Angus Cross feeder steers. These steers were 451kg live at assessment after an overnight curfew. The steers are majority vendor bred on Ardrossan Angus bloodlines and are generally a good line of growthy steers with frame. The steers were mouthed at assessment to be milk and two tooth and weighed into a range from 370kg to 534kg ready for the feedlot. Please note one steer was noted with an old blight eye scar and one with a needle vaccination lump on the neck. Also note there are another 4 decks of Angus feeder steers from the same vendor in the sale which may help with trucking. |
