Steers flowed well through yards, some were quite agitated when isolated and would need to be slowed through gates but were quite calm in bigger yards. Majority of steers were a fine to handle but did move off pressure easily.

Assessor Comments	A neat line of Droughtmaster, Angus and Santa/Shorthorn cross steers, presenting in strong store/forward store condition. Steers were purchased SE of Perth, WA earlier in the year and have had a mob ADG of approx 0.9kg on purchase weight in WA, with most of that during an exceptional winter season with fresh herbages and abundance of clover. Bred from good Bulls out of New Generation Angus & Munda Droughtmasters. These steers are showing good cover and will go on in the paddock or on the feed bin. For best description of breed makeup, as they were purchased please view Video. These would load on light B-Double or 2.5 Decks if needed. There is another light 3 deck lot in same sale close to Cunnamulla that may be of interest to help with trucking.
