Assessor Comments	A great opportunity to secure some very highly regarded southern genetics, A quality run of Te Mania Angus blood heifers from a long-established team Te Mania herd. Originally purchased as vendor bred weaners from Glencoe Farm Trust from the Mortlake area earlier in the year, heifers came out of very dry conditions in the south and have since endured a cold & very wet winter in the New England. Heifers are poised to turn inside out come spring time which is just around the corner. Well renowned for their marbling capabilities these Te Mania blood heifers make for perfect future breeders but also tick all the other boxes relating to all other grass fed or feeder markets. While heifers are in store condition they present healthy & on the way forward, old ring worm scaring present but healing nicely. With some sun & good protein going forward you wont know these heifers in 6 months time, A great opportunity to replenish your herd with some renowned genetics, see other lots for sale.
