Assessor Comments: A very good line of Angus Steers representing the complete annual draft of the Lemon Grove Steers, with a 9% tail taken out. All steers were weighed out over 300kg. These steers were weaned early due to the hard seasonal conditions at the time, but are bounding away now on the good winter herbages. The Lemon Grove cattle are always keenly sought by major feedlots when given the opportunity. Noticed 8 head with some white on the purse area.
