Assessor Comments	A nice line of weaned Angus heifers, all AI sired calves from the high quality sire in Hazeldean Q1580 in 2 rounds the a back up bull son is Te Mania Emperor E341 used out of an extremely well bred herd of cows who carry genetics from both Hazeldean & Te Mania. Traditionally these would be retained as replacements but room must be made for lambs. These heifers present in line with seasonal conditions with this behind them these steers will bounce away if shown some crop or green feed. They are bred to perform on crop or in the feed yard. Ideal suited to take on as replacements alternatively through to a range of feedlot entry weights or to a Grass/MSA processing job. Odd heifer with old pink eye scar not detrimental to sight, one with full white eye another with active pink eye & some with ringworm.Vendor has another line of steers in the same sale. Full of compensatory gain.
