Assessor Comments A quality line of 21 vendor bred bucket reared F1 heifers being out of large frame friesian cows and sired by Ai Angus bulls. The heifers have been weaned & vaccinated for your convenience. These heifers are very well grown for their age and would make ideal cattle to put away before grass fever really takes off. These heifers present an excellent opportunity to purchase a small line of Angus X F1 weaners that are backed by leading Ai Angus sires with all the hard work already being done for you. Just show them the feed, and watch them grow. Please note the vendor is also offering another lot of steers in this sale.
