Handled With	These heifers have not had a lot of handling since being weaned & were still a bit 'runny'. They flowed well through the yards, an odd heifer got agitated when under pressure being drafted off & on the scales in the crush. Once back in the mob they calmed down & were easy to handle. Bikes , On foot , Vehicles		
Notable Traits	Traits 3 Head Mild ringworm (face only, see picture) 10 Head Old pink eye scaring (One eye only, see picture for worst)		
Assessor Comments	A great opportunity to purchase a B Double of Angus Heifers. These heifers have come through a tough autumn & winter, but are ready to perform heading into the Spring. They are in light store condition, ideal for the purchaser as a lot of growing has been done & they are ready for weight gain. The vendor has been breeding Angus cattle for the last 25 years, always sourcing high quality bulls with good growth figures. Annual sale of heifer weaners on Auctions Plus, previously sold at Barnawartha Store sales with repeat buyer competition. Grass Fed & Antibiotics Free.
