Assessor Comments	Amherst cattle are extremely well renowned cattle by feedlots and grass fatteners. This group raised through a very tough season. Present in store condition. Hairy winter coat , brown coastal tint to several , some winter rub marks present on neck and twist Display good length of body and frame size better than their weight would suggest, season considered. Outstanding compensatory growth expected. This group really on the do now. Medium maturity. All health protocols up to date. EU accredited.
