Vendor Bred	No Vendor has owned stock for 2-6 months
Stock History	Bred on one of two breeder locks locally from a medium & large framed commercial based Angus, Santa Angus cross herd, there is a couple heifers off bought in replacement breeders in this lot.
Lifetime Traceable Bloodlines	Unknown The youngest are by U8J Angus sires, the older are by locally bred Angus sire.

Grazing Conditions	Until weaning on 3/8/25 had still been on their mother's & grazing frosted native & improved pastures, noting that a majority of these heifers had been weaned by their mothers in the vendor's opinion. Returned to: Being held in yard on Rhodes grass hay until delivery.
--------------------	---

Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment
-------------------	---

HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives
Chemical Residue	Nil known to vendor.

Vendor Comments	Well grown heifers, showing good growth, length and quiet temperament. Would make lovely replacement breeders for someone.

	Well behaved heifers given the fact they are fresh off their mothers, these cattle are typically always very quiet.

Notable Traits	Traits					
	1 Head Pink eye scarring in one eye					
Assessor Comments	These heifers flowed through the pound & race very well, a couple stirred up in the vet crush however given they are fresh off their mothers it's tolerable behaviour at this stage. These heifers are well grown and show plenty of frame and good bone. There is a heifer with minor scarring in one eye, other than that no imperfections noted. These heifers would normally be kept and grown out to replacements, however available grass/ room doesn't allow it this time. I highly recommend these heifers.
