Assessor Comments	A good line of well bred Angus Heifers. These Heifers present in ideal condition to continue to go ahead on a Winter crop to take through to heavier weights to join or feed. Looking at these Heifers I would recommend these Heifers would benefit from a drench. Heifers are out of a very good Cow herd what is culled on fertility every year. Vendor has been purchasing by from Texas Angus and spends from \$9,000 to \$20,000 on their Bulls focusing on good 200-400 day growth, EMA and IMF. Noticed at assessment 3 Heifers with old scarring on their eyes but not detrimental.
