| Assessor Comments      | Offering 52 quality Angus and Angus Cross feeder heifers. The heifers averaged 429kg live at assessment and have all been preg tested not detectable by a vet. The heifers were weighed into a range of 350kg to 510kg and were very quiet to handle. These heifers are all branded No.4 and are sired by NB Genetics Angus Bulls. This two-deck line of heifers are ready to go into a feedlot or would equally suit joining to the bull of your choice. Please note 3 heifers sighted with varying degrees of old blight eye scarring (photo attached) and noted were some heifers showing light rub that would benefit from a back line. Also please note the delivery on these heifers extends to Thursday which lines up with the Blackall weaner sale on the 28/05/25. This may help linking in with other cattle from the sale. |                                                                              |                                        |
