Assessor Comments	3 Decks - 101 #5 Heifer Weaners, these heifers are vendor bred and a very neat line. Visually they are very even and similar in types coming from the Brahman composite herd while using Brangus, Ultrablack and Black Simmental bulls. The Black Simm heifers showing exceptional shape and bone with plenty of punch. All flatpack typed heifers that will suit majority of northern feedlots (10hd with a very slight crest or hump). They have been weaned and well educated to horses, dogs and bikes also being an absolute pleasure to handle. They walked calmly though the yards and up the race. They would be well suited to feedlots however if you're looking for top up breeders there is a very good line of future breeders in them. This property is south of the tick line so an immediate delivery is available.
