	Quiet: 72 head		Slightly Stirry: 35 head		Paddock	
	Slightly Stirry: 20 head		Stirry: 10 head			
	Buyers these steers were a pleasure to draft and assess. They were good to handle considering only being yard weaned for 7 days. Approx a third of the mob got unsettled in the crush whilst being pre treated which is to be expected for fresh weaners and a few were quicker in the pound. I have full confidence these steers will be good to educate and will settle nicely. Please refer to my videos of the steers in the yards after assessment. Vendor has 1 more line of steers in this same sale.					
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Vehicles					
Assessor Comments	Buyers please consider this vendor bred line of 102 Droughtmaster x steers (3 decks). Weighing from 186 - 396 kgs to average 266 kgs at assessment. This line of steers have been born & raised at "Medway Park' and have been pre treated for ticks to assist buyers with movement into tick free areas. The Saunders Family cattle of "Medway Park" have a strong reputation for their performance and i have full confidence these steers will grow out to reach heavy feeders or good bullocks. Please refer to my photos and videos for further description of this lot. Small handful of steers showing higher content in their cross. PCAS eligible. These steers have had 7 days prior to assessment in the yards on good hay being yard weaned, remaining yard weaned until delivery. Vendor has another line of steers in this same sale.
