	Buyers these steers were a pleasure to draft and assess, Quiet well handled steers with plenty of time going into their weaning and education. Only a small handful got unsettled in the crush being assessed which is to be expected and only a handful were quicker in the pound. Buyers please refer to my videos to showcase their steady quiet nature in the yards. They have had exposure to dogs since being weaned, but have not had extensive education with dogs. Mostly handled with horses and bikes.
