Paddock

These steers were easy to handle through all aspects of the yards. A percentage did slightly resent being mouthed but this is nothing uncommon. One steer did get agitated when isolated while getting put through the spray race after being mouthed and assessed but settled quickly once back in the mob. These steers are typical of chopper mustered cattle and require being steady through gateways. Overall these steers were a pleasure to assess and I believe the buyer will have no trouble.

Handled With Aerial (Helicopters, gyro's and planes) , Bikes , Dogs

Assessor Comments

Buyers please see an opportunity to purchase 4 decks of HGP free crossbred steers that you can buy with confidence knowing they have all been bunk trained as weaners on a silage ration. These steers come backed with a reputation of exceptional feedlot performance and are highly sort after by previous buyers. They would be best described as store condition steers with plenty of frame, typical of steers at this time of year. These steers are all vendor bred with the exception of one bought steer. These steers are backed by some of the best genetics in the country including Meldon Park, Woonallee, Eastern Plains, Rockley and Yoman bull to name a few. They're bred out of a crossbred cow herd that consistently dress over 330kgs. Buyers please note there is one steer with old blight scarring in one eye and one with a small amount of warts on his head, neither were thought to be detrimental at assessment and can be seen in the photos but will be pulled out at delivery if they have got worse.
