Assessor Comments

Buyers here is a good line of fully weaned Angus cross heifers that averaged 307 kg after 12 hours in the yards. These heifers are ready to fire, plenty off frame and pick up to take onto heavier feedlot entry weights. Would be usually taken onto heavier weights by the vendor but need to make room for the next lot off weaners in the coming months. Please note a small percentage have a small blue spot in one eye, none off these blemishes seen to be detrimental. Buyers please note the delivery point is Roma Saleyards and will be delivered there the day of the sale.
