| Comment on Fat Score 1 Cattle | Cattle present in strong store condition to forward store condition                                                                                                                                                             |
| Vendor Bred                   | Yes                                                                                                                                                                                                                             |
| Stock History                 | Vendors run a predominately Santa/Droughtmaster X based cow herd but also have influences of Angus/Brangus, Charolais & Hereford cows. A small portion not bred by vendor as purchased as cows & calves earlier in the year.    |
| Lifetime Traceable            | 100% of cattle in this lot are Lifetime Traceable                                                                                                                                                                               |
| Grazing Conditions            | A mix of soft red mulga and gidyea country with abundance of fresh salines, herbages & native hayed off grasses. Returned to: Weaners will remain in yards until delivery on lucerne & oaten hay and continue to be tailed out. |
| Burr/Seed in Coat             | No Burr or Seed of weeds declared noxious observed in the coats at assessment                                                                                                                                                   |
| HGP Status                    | The owner declares that the cattle have not been treated with HGP at any period of their lives                                                                                                                                  |
| Eligibilities                 | PCAS Eligible                                                                                                                                                                                                                   |
| Vendor Comments               | Part of annual turn off of weaners. Plenty of education has been put into these cattle with the weaning process both in the yards and out.                                                                                      |

|                                       | Weaners worked through draft and race well at assessment with the odd one stirring up under pressure but settled once it was back with the mob. Moving weaners between yards were very quiet and a credit to the education the vendor has already put into them. Weaners will continue to be educated outside and inside the yards until delivery.                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                 |                                     |

| Assessor Comments                     | A 3 deck line of 94 VGQ PCAS eligible Angus & Angus X weaner steers that present in store to forward store condition and are best described as being medium to large frame relative to age. Steers show plenty of bone, length & depth and will continue to grow out to be excellent heavy feeders or grassfed bullocks given the opportunity to fresh feed or crop. This is an opportunity to buy a large run of one brand steers that will have been well educated in and outside the yards. Buyers please note some of these cattle have been in hand for up to two weeks at assessment so expect good compensatory gains. Vendor also has other lines in the same sale. At assessment 1 x head noticed with small ring worm marks on head & 1 x head with a blue eye but was treated at assessment. |                                                                                 |                                     |
