Comment on Fat Score 1 Cattle

Light in condition due to short wintery feed conditions & calf burden, however otherwise strong & healthy

Vendor Bred

No

Vendor has owned stock for 6-12 months

Stock History

Purchased ex AuctionPlus, mostly in two large lines of PTIC heifers, consisting predominantly of heifers purchased at weaner sales in South Australia & joined to Angus & Speckle Park bulls by the previous owners. Split into smaller lines for calving.

Lifetime Traceable

100% of cattle in this lot are Lifetime Traceable

Bloodlines

Purchased heifers bloodlines based largely on STERITA PARK & PATHFINDER ANGUS lines, with a sprinkling of TE MANIA blood heifers in the mob

Grazing Conditions

Short pick of improved Clover pastures, with Annual Winter grasses throughout. Supplement of clover pasture silage

Returned same

Notable Traits	Traits			
	3 Head 1 cow & 2 calves with very slight blue scar blemish in one eye from old pinkeye infection			
	2 Head slight white on udder/underline of 2 cows			
Assessor Comments	A nice line of well grown, station-mated Angus heifers with their first calf at foot, & a good chance of being back in calf to their second. Heifers are well developed, but are lacking in condition & subsequent weight, due to having access to only short wintery feed whilst nurturing a sappy drop of calves, which are starting to acquire good weight. 2 of these first calvers are mothers to twins & a 3rd has fostered an extra orphaned calf, in addition to her own. 3 calves in the mob are sired by Speckle Park bulls, with 2 throwing speckled in colour & 1 throwing black. Approx 7 steer calves are displaying "bully" heads. Cows & calves alike, are set to thrive with access to more abundant, longer pastures, & offer an excellent opportunity to secure a quality line of young Angus breeders which have calved unassisted to top quality Angus & Speckle Park calves. With prime old cows currently selling in excess of \$4/kg, they offer real value & an attractive change-over into younger breeders.
