	Heifers once separated from the calves were uneasy and unsettled. The process off drafting the calves off there were 2 heifers that were agitated by the process but otherwise all other heifers handled the handling fine. Calves followed suit with this being the first time being yarded.			
Handled With	Bikes			
Notable Traits	Traits 1 Head Eye Scarring			
Assessor Comments	A quality line of 2023 drop Angus heifers with April/May calves at foot. Heifers are not rejoined giving the successful purchaser the ability to join them to the bull of their choice. Calves were marked at assessment and were an even split of steers and heifers. The heifers are doing a terrific job of rearing their calves with all calves representing quite forward and even for being first calvers calves. The calves are sired by an AI Bull Woodhill Comstock and mopped up with a Rennylea Angus Bull.
