Assessor Comments	10x11 Simmental cross cows and calves. Cows are large frame breeders showing plenty of growth, bone and conformation. Cows would be an ideal article to fatten and split or could be kept to produce a few more calves. Mainly large frame cows that would weigh high 600s once fattened. Calves off these cows have topped markets in the past. One cow has a set of twin calves. All cows mouthed. One young cow just breaking 8 teeth, 7 sound mouth, one cow worn/ broken, one cow gummy.
