	Quiet: 20 head Slightly Stirry: 3 head	Quiet: 14 head Slightly Stirry: 8 head Stirry: 1 head	Temperament not assessed in Paddock
	Heifers are reasonably quiet and with only a few playing up through the crush in a very basic set of cattle yards		
Handled With	Bikes , On foot		

Assessor Comments	23 PTIC Angus heifers that are 6 - 8 months pregnant for a tight 8 week calving interval. The heifers were Ai on the 03/12/2024 to TeMania Montalto (VTMN1314) who was chosen as a easy calving proven heifer bull, with great growth and caraccas meat characteristics in his progeny. The heifers were then backed up with Lawsons U6028 (VLY23U6028) form 14/12/2024 to 21/01/2025 who is another easy calving bull, with solid growth EBV figures and excellent EMA data. The heifers were purchased ex King Island as weaners off a Lawsons Angus co-operator herd, and since been grown out a joined by the vendor. These heifers present a great opportunity to purchase leading edge genetics right on the point of calving to fast track your breeding numbers. Please note the odd heifer was noted as having white on their udder.
Assessor	**Trent Storm (Level 1 Accredited)**
Delivery Period	16/08/2025 to 22/08/2025 (7 days)
